MC Config - 20181023144600

ⓘ This component release is part of MarvelClient 10.0

ENHANCEM ENT	The Welcome Screen is now also available in German; we are looking into adding more languages
FIX	The Copy XML to Clipboard button is now hidden for documents for which there is no XML to copy
CHANGE	The Language selector at the top left is now statically labelled "Select Language" and no longer being translated
CHANGE	Online Update will now check for various SSL issues, such as expired or invalid certificates, wrong host names and more. This applies to both Online Updates of type LotusScript and Java, using HTTPS1.0 or HTTPS1.1.
CHANGE / ENHANCEM ENT	Online Update has been enhanced to also support MarvelClient Upgrade as an addition to MarvelClient Essentials. When using a license key for Online Update, MarvelClient Upgrade components are now downloaded into MarvelClient Upgrade\Files, too (if within licensed scope).
