MC Config - 20190429181900

ⓘ   This component release is part of MarvelClient 10.1

ENHAN CEMENT	The "Local Replica" tab in the Application action has been reorganized; it is now split into a Basic and an Advanced section.
FIX	Fixed an issue in the Generic action where the runtype was not readable if the document was open in read-only mode.
ENHAN CEMENT	When opening the view for MarvelClient Upgrade configurations, a check is now performed to ensure the current Notes client meets the requirements for creating them: Windows, Rich Client, and Jave MaxHeapSize must be large enough.
