MC Config - 20190506112000

ⓘ   This component release is part of MarvelClient 10.1

CHANGE	MCUpgrade Configuration: Added /REBOOT=ReallySuppress to all full client install instructions
ENHANCEMENT	MCUpgrade Installers: Added view icon to Installers view to show which installers are supported by MCUpgrade Free
ENHANCEMENT	MCUpgrade Installers: Added notification upon indexing of installer(s) for MCUpgrade Free customers if an installer is not covered by license
CHANGE	MCUpgrade Configuration: When using service elevation and checking "use service exclusively", fallback options are now hidden (and disabled in mcupgrade.ini)
CHANGE / ENHANCEMENT	MCUpgrade Configuration: Added a new option to specify that "ALL end users have admin rights" on the elevation tab - the .mcu keyfile is then optional if smtp auth is not needed
